

What Is Love

POEM BY DARIEN TINSLEY

What is Love?

A beautiful feeling amongst people?

Love is when a Honey Bee flies to its natural hive.

Love is when you smile about something or someone on a bad day for no apparent reason,

Love is the tingling feeling you get inside, or just an emotion that is hard to hide,

Love is a manipulative choice, which can sometimes act as your voice,

It is shown in so many different ways. It keeps you on your toes, and maybe if you're lucky even tingles your nose,

It warms your body in a certain place, but always keeps you and your heart feeling safe,

If you get the chance to experience love enjoy each and every dance, because you never know when it will be your last chance.
